

Our Mission: To inform, activate, connect, and engage Rotarians to create ways and means to support action for a world free of clubfoot disabilities.

Step Up For Clubfoot Treatment

Clubfoot Disability: A global problem ...

- 1 in every 750 live births
- Twice as common in males
- In both feet half the time
- 200,000 born annually
- Over 1 million untreated globally

The Ponseti Method: The Global Solution ...

- Low-cost, low-tech, 92% highly effective
- Can be used anywhere in the world
- Endorsed by professional societies
- International **GOLD STANDARD** method of treatment

You can help! As a Rotarian, you can:

- Join the Rotary Action Group to recruit Rotarians and friends to build support.
- Provide financial support for healthcare professionals to be trained to apply the Ponseti Method.
- Assist with logistical support for families and caregivers including transportation, housing, food and other needs.
- Provide night-time braces to complete Ponseti treatment.
- Assist with public awareness to: reduce the stigma, spread the message that 'clubfoot is treatable', and promote early referral to appropriate treatment centers.
- Advocate with governments and healthcare officials to provide facilities and resources to treat clubfoot.
