

Why Become a Member of the Rotary Action Group for Clubfoot?

Make a Global Impact

- **Clubfoot** is one of the most common birth defects, affecting 1 in 750 children worldwide. Without treatment, it can lead to lifelong disability.
- **RAG4Clubfoot** promotes the use of the **Ponseti Method**, a non-surgical, low-cost treatment that has a 92% success rate.

Support Rotary's Disease Prevention & Treatment Efforts

- Rotary is known for its **global health initiatives**, such as the eradication of polio. Supporting clubfoot treatment aligns with Rotary's mission to prevent diseases and disabilities.
- **RAG4Clubfoot** collaborates with governments, NGOs, and healthcare providers to expand treatment access.

Connect with Like-Minded Rotarians & Experts

- Join a global network of **Rotary members, medical professionals, and advocates** working together to eliminate clubfoot disabilities in children.
- Share best practices, resources, and success stories to create sustainable programs in different regions across the globe.

Strengthen Peace & Economic Development

- Treating clubfoot enables children to **walk, attend school, and participate in society**, improving their quality of life and economic opportunities.
- It reduces **health disparities**, particularly in low-income and rural communities, aligning with peace building and social inclusion efforts.

Get Involved in Hands-On Service Projects

- Participate in **fundraising, advocacy, and direct service projects** to support clubfoot treatment centers.
- Help train healthcare workers, donate braces, or establish partnerships with hospitals.

Leverage Rotary Grants & Resources

- Access **Rotary Foundation grants** and funding opportunities to expand clubfoot treatment programs in underserved areas.
- Benefit from Rotary's credibility and experience in implementing global health initiatives.
